SUMMARY

Senior Software Developer and Technical Lead with over 5 years of experience in developing and scaling enterprise applications. Proven expertise in **Full-Stack Development**, **Cloud Architecture**, and **Technical Leadership**. Specialized in **Node.js**, **React.js**, **TypeScript**, **Microservices**, and **Cloud Technologies**. Successful leadership of teams and implementation of technical strategies for developing scalable and maintainable software solutions. Currently CTO at Tara Solutions with focus on innovative cloud solutions and enterprise architecture.

Core Competencies:

Full-Stack Web Development, Microservices, TypeScript, React.js, Node.js, CI/CD, Cloud Solutions, Agile/Scrum, Technical Leadership

PROFESSIONAL EXPERIENCE

Chief Technology Officer (CTO)

Tara Solutions Inc, Kabul
Jan 2023 – Present | Remote

- **Development of Web and Mobile Applications** using Node.js, React.js, Next.js, TypeScript, React Native
- **Strategic Partnership** with Cloud Station LLC FZ (Dubai) for Enterprise Cloud Solutions
- **Technical Team Leadership**, Implementation of **Code Quality Standards** and Best Practices
- **Architecture and Strategic Planning** of Microservices and Cloud Infrastructures
- **Development and Implementation** of technical vision and strategy for the company
- **Leadership and Mentoring** of an international development team with focus on **Agile Methods** and **Continuous Integration/Deployment**

Senior Full Stack Developer

Listoli LLC, USA
Oct 2022 – Dec 2023 | Remote

- **Design and Optimization** of PostgreSQL databases for e-commerce systems
- **Development of RESTful APIs** and microservices using NestJS and Next.js
- **CI/CD Automation** with GitHub Actions and Google Cloud Platform

Full Stack Developer

Click.af, Kabul
Jun 2021 – Sep 2022 | On-site

- Development of Web and Mobile Applications using React.js, Node.js, Next.js, React Native
- Integration of Vendor API for efficient order and payment management
- Implementation of E-commerce Features and user interfaces

Full Stack Developer

BlueBit Networking Services, Kabul
Feb 2021 – Jul 2021 | On-site

- Development and Management of high-traffic web applications using Python, Django, React Native, MySQL, and React.js
- Development of Petition Management System for the Ministry of Defense focusing on process optimization and workflow improvement
- Workflow Optimization and usability enhancement of developed systems

Technical Skills

Programming Languages:

Node.js JavaScript TypeScript Python
PHP Go Java

Frameworks & Libraries:

React.js Next.js Node.js NestJS
Express.js React Native Django
FastAPI Flask Laravel

Databases & Storage:

PostgreSQL MongoDB MariaDB MySQL
Redis ElasticSearch

Cloud & DevOps:

AWS GCP Docker Kubernetes
CI/CD Git GitHub Actions Nomad

Architecture & Methods:

Microservices RESTful APIs GraphQL
Event-Driven Architecture Agile/Scrum
TDD DDD Clean Architecture
SOLID Principles Design Patterns
Object-Oriented Programming
Functional Programming

LANGUAGES

Dari Native
English Fluent (C1)
German Basic (A2)

Junior Web Developer

IAP, Kabul

Feb 2020 – Apr 2020 | On-site

- Development of MOEC Socio-Economic Provincial Profiles Digitization System in collaboration with Tetra Tech
- Web Development using PHP Laravel, MySQL, HTML, CSS, Vue.js, and JavaScript
- Support and Maintenance of existing websites, bug fixing, and optimization
- Hands-on Experience in software development, debugging, and performance optimization

EDUCATION

Master in Data Science

University of Europe for Applied Sciences

Mar 2025 – Present

- **High-Quality Master Program** focusing on cutting-edge technologies and methods
- **Core Subjects:** Data Science, Data Engineering, Data Analytics, Machine Learning
- **Specialization:** Cloud Computing, Decision Support Systems
- **Additional Qualifications:** Entrepreneurial Thinking & Digital Business Models

Bachelor in Computer Science

Kabul Polytechnic University

Mar 2016 – Aug 2019

- Graduated with second place in class
- Mentoring and Support of fellow students in programming and algorithms
- Focus Areas: Software Engineering, Databases, Networks and AI

Key Projects

Cloud Station Platform

Enterprise-Grade Cloud Deployment Platform enabling rapid application deployment and multi-cloud management. Implementation of centralized interface and automation with focus on security and scalability.

Multi-Cloud

CI/CD

Infrastructure as Code

Security

www.cloud-station.io

5th Wave

AI-Powered Voice Transformation Platform enabling multilingual voice cloning while preserving unique voice characteristics. Implementation of real-time voice processing with advanced AI algorithms for perfect voice replication.

AI/ML

Python

Node.js

Real-time Processing

API Development

wave.cloud-station.io

Tara Solutions Cloud

Digital Transformation Solutions Provider offering comprehensive cloud, web, and mobile solutions. Implementation of enterprise-grade infrastructure with focus on scalability and security.

Cloud Solutions

Web Development

Mobile Apps

DevOps

AI Integration

www.tarasolutions.cloud

Plant Disease Detection System

AI-powered deep learning system for plant disease detection using Raspberry Pi and camera for real-time diagnosis.

Deep Learning

Raspberry Pi

Python

Computer Vision

AWARDS

Certified Micro Developer

Certified by micro1.ai - World's best AI Recruiter for technical excellence and software engineering expertise

Asia Kabul Regional ACM/ICPC Competition 2018

3rd place among 40 teams

Duolingo English Test

Score: 120 out of 160
